

Annex 4: Milestones for the Human Security Strategic Plan, 2006-2010

	2006	2007	2008	2009	2010
Emergency response	Improved analysis leading into global alert system for emergencies	Internal capacity-building in emergency response; UN cluster systems and CERF systems changed to be better able to use local capacity	Improved early action on slow-onset disaster	Improved long-term response, especially with reference to HIV and AIDS and women's rights	Reduction in tied food aid
Conflicts	Reenergize conflict network around RBA in conflict	Capacity-building in conflict analysis, staffing, contacts and conceptual clarity	Youth in conflict program established and coherence across conflict work in several countries	Influence at Security Council on UN Peace-keeping Commission and Peace-building Commission	More effective post-conflict programming, e.g., in VAW
Disaster risk reduction	AAI has leading international position on ISDR: to accommodate CSO role and support govt. Responsibilities	AA work is more disaster resistant and informed by PVA	AA changes its work to be more adaptable to climate change	Countries will have disaster risk reduction policies adapted for climate change	Govt. and UN take up recommendations on DRR in schools
